NEKOOSA COATED PRODUCTS,LLC**Thermanent & Indigo Synthetics**

Thermanent designed to withstand the high heat environment within toner-based digital printing equipment, Thermanent is a premium polyester based synthetic that combines extreme strength, flexibility, print quality and durability. This revolutionary product produces beautiful images that last when hung on the wall or even submerged in water. Strength and durability make Thermanent the perfect substrate to replace any laminated application including signage and menus. Nekoosa now offers die cut templates for door hangers, parking passes, and business cards. This product is offered in convenient retail size reams containing 100 sheets for most sheet sizes, which make those smaller jobs a perfect match for your digital printer. Why waste time and money laminating when you can press the green print button on your digital printer and have a job that is ready to ship using Thermanent?

- Designed specifically for digital toner platforms ranging from desktop printers to full production digital equipment.
- Replaces laminating. Durable and weather resistant polyester face stock is perfect for indoor and outdoor usage.
- Available in three die cut patterns; 3UP door hangers, 6UP parking passes and 8UP ID cards to save you time and money.

Nekoosa's Indigo Durable Synthetic, with premium IndiLuxe™ coating, is a synthetic paper specifically designed for HP Indigo presses. Its durable, tear resistant base stock makes Indigo Durable Synthetic a great choice for both indoor and outdoor applications where resistance to water, chemicals, oil and grease is necessary.

Advantages:

- Earned top ratings in all HP Indigo certification categories from the Rochester Institute of Technology
- Excellent HP Indigo ElectroInk® adhesion for superior imaging
- Nekoosa's IndiLuxe™ proprietary coating treatment assures the sheet won't yellow over time

SPINNAKER COATING**Print Vinyl - Avery Cast MPI 1005**

Avery MPI 1005 Supercast Series Vinyl is a premium gloss opaque vinyl designed for use in fleet marking and vehicle wrap as well as corporate identity applications.

MPI 1005 Supercast provides superior conform-ability to irregular surfaces such as compound curves and corrugations. Easy Apply and Easy Apply RS features offer the benefits of reduced wrinkling and air entrapment inherent in the application of decals. The RS feature also provides repositionability and slide-ability for exact positioning.

Features:

Superior conform-ability to irregular substrates

The air egress technology on Easy Apply and Easy Apply RS films helps eliminate wrinkles and bubbles

RS feature provides slide-ability allows for easy positioning * High gloss finish

Outstanding durability and outdoor performance * Dimensionally stable liner for easy converting

Excellent dimensional stability * Long term removable provides permanent adhesion, but removes cleanly

Applications:

Wall Murals, POP/Trade show, Outdoor Signs, Floor Signs, Fleet Vehicle Marine/Watercraft

Foam Board

Features a resilient polystyrene core that “bounces back” after handling, cutting or mounting. Foam Board is strong yet lightweight...rigid yet versatile. Its paper surface has a double-clay coating that yields an ultra-smooth finish. Having both a brilliant white and a wide range of colors, Foam Board assures you a quality performance no matter how you use it.

Amazingly Light Weight * “Memory” Core
Ultra Smooth Surfaces * Double-Clay Coating
Available in 1/8”, 3/16”, 3/8”, and 1/2”
in a variety of sizes

Mighty Core

When you need a durable, extra-strong performer, EnCore® MightyCore® Foam Board is your best bet. The ultra smooth surface provides excellent ink coverage and adherence. The rigid, rock-solid center makes it especially suitable for large fabricated pieces. The construction of MightyCore helps prevent warping, bowing and twisting and creates a "no preparation" surface for printing and applications that need a rigid substrate. Classic White, White-on-Black and Black-on-Black in a variety of thickness and size combinations.

Foam PVC

KOMATEX is a lightweight closed-cell, free foam, rigid PVC sheet. It is homogeneously colored with a matte finish that is tough and versatile enough for many of today's applications. KOMATEX is available in 12 standard vibrant PVC color sheets, plus black and white, and a variety of thicknesses and sizes to fit most uses. The matte surface is the perfect substrate for screen printing, painting, laminating, vinyl lettering and forming projects. KOMATEX can be sawed, drilled, bent and fabricated using ordinary (plastic) tools and fasteners. KOMATEX is manufactured to be used for interior and limited exterior applications.

SPINNAKER COATING**Laminate - Cast****Avery Cast Overlamine**

A highly flexible premium quality UV stable high gloss cast overlamine designed for use as a protective overlaminating film for digitally printed images and is suitable for durable outdoor images on flat or irregular surfaces.

Features:

Maximum UV Protection * Improves inkjet outdoor image durability to up to 3 years
 Improves solvent inkjet outdoor image durability to up to 5 years * Good abrasion resistance
 Highly conformable • Excellent adhesion to graphic materials

Applications:

Flat sided trucks * internally illuminated signs * Cars and Vans * Marine
 Promo Calendered Overlamine (2 Year Durability)

NEKOOSA COATED PRODUCTS,LLC**MagneCote**

You only get one chance to make a first and lasting impression. Using magnetic media instead of standard paper is your best opportunity to do both. MagneCote® Offset, offered by Nekoosa Coated Products, is the world's most attractive paper and the greener magnetic paper choice. Magnetic advertising media offers the highest ROI and retention of any substrate. A magnet is irresistible; you simply must stick it to your file cabinet, refrigerator or the nearest metallic surface. In fact, it is this irresistible urge that gives magnetic media a 30% higher response rate than other substrates. MagneCote® Offset is the perfect choice for business cards, calendars, sport schedules, coupons, reminders, and instructions. The possibilities are endless. Keep your name in front of your customers and steer more business your way!

Magnetic printing just got easier with MagneCote® Digital. A special coating has been added to standard MagneCote® Digital that enables the product to withstand the high heat environment within digital print equipment. Now, you can run pre-magnetized product on your mid-range digital platforms for short run, quick turnaround magnet applications. Since the product is pre-magnetized, it is designed to run in small to mid-size digital printers that do not have lengthy conveyance areas where the product can magnetically adhere to conveyance trays. We offer 10 sheet trial packs that enable you a risk free trial of the product, just contact your local merchant or Nekoosa customer service rep for details. Expand your printing opportunities if you are not currently offering magnetic printing or save the hassle of outsourcing magnet jobs by using Digital MagneCote for business cards, calendars, and company contact information. •Like standard MagneCote® Offset, Digital MagneCote is Nexpress certified.

PETG Clear

PETG is a transparent copolyester that offers a unique balance of physical properties and ease of fabrication. PETG is the ideal material for applications that require deep draws, complex die cuts and precise molded-in details without sacrificing structural integrity. It can also be easily decorated by painting, silk screening or hot stamping. PETG is heavily used in the POP display and store fixture industries.

WESTROCK MWV LLC**Tango Wide Format**

The preferred choice for making a great impression for indoor wide format applications such as in store signage, point-of-sale displays, banners and posters. Engineered to provide optimum results on a broad range of UV and latex ink-jet printers.

Features and Benefits

- Matching shade and brightness to standard Tango for offset to ensure consistent high quality brand image across any print campaign
- Outstanding ink hold out delivers superior, eye-catching graphics to project higher quality brand image compared to polystyrene
- Offers retailers a recyclable solution vs. alternative substrates for signage and banners
- Significantly lower cost alternative for in store applications vs. polystyrene
- FSC® Certified

Polyolith

Polyolith is an extremely versatile, polymer-based material that prints like paper but boasts the best properties of plastic. Polyolith is far stronger than conventional paper and supports a massive selection of grades, gauges, finishes which make Polyolith a serious consideration for almost any application. Take a close look around your house or the next time you walk through a store. There's a good chance what you're holding is made of Polyolith.

Applications :

NEKOOSA COATED PRODUCTS,LLC

Synaps Digital XM

Synaps Digital XM is a polyester based synthetic paper engineered for high heat, dry toner digital printing. Toner fuses with the synthetic paper to make the finished product both durable and naturally resistant to water, chemicals and grease. The polyester based material has incredible tear strength, and can hold up in any environmental condition.

Digital Productivity
Designed to perform on all dry toner based platforms
On demand, high quality printing
Minimal scrap, waste and time compared to lamination

Ultimate Durability
Toner fusing creates a naturally resistant surface to water, chemicals and grease
Polyester base provides incredible tear strength and dimensional stability
Eliminates frayed edges and de-lamination issues

NEKOOSA COATED PRODUCTS,LLC**Synaps OM**

Synaps OM effortless, efficient processing combined with beauty and strength makes Synaps® OM the new standard for offset synthetics. Synaps® OM is a next generation synthetic paper that is made from high grade polyester and high performance printable topcoat. No other product comes close to matching its exceptionally fast drying time and print quality, all with standard offset inks. The polyester film provides tear resistance, excellent dimensional stability, unmatched lay-flat characteristics, along with the look and feel of a luxury paper. Synaps® OM delivers high throughput and quick turnaround using standard inks, which enables offset printers of any size to win new opportunities replacing lamination for menus and POP signage. To top it off, Synaps® OM stands up to the toughest indoor and outdoor environments. Synaps® OM is designed for offset printing applications as well as HP Indigo, screen, flexo, gravure and UV-curable inkjet printing.

- Superior alternative to lamination
- Dries like paper for quick processing
- Exceptional printing using standard inks
- Waterproof, tear proof, and weather resistant
- Lays perfectly flat, even if shipped in a tube
- Look and feel of a luxury paper
- RIT certified for HP Indigo printers

R. TAPE CORP**Synaps OM Roll**

Synaps is a next generation synthetic print media made from high grade polyester film, not vinyl. Polyester films have superior dimensional stability and unmatched lay-flat characteristics. The result: great looking prints that hold their shape and color without extra laminating or mounting.

Synaps OM features exceptional durability, fast drying times and a UV resistant base stock. The stability and weatherproof qualities of the material allow for a variety of applications including:

Point of sales displays * Wide format banners * Indoor and outdoor prints

Trade show graphics * Retractable banner stands

and hanging sign-age that won't bow, curl, delaminate or fade.

Synaps OM is compatible with most UV and latex printers. Printer profile can be found for various HP DesignJet and HP Latex platforms at www.rtape.com/support/icc-profiles.

Synaps OM is available in 36" x 100 ft. and 54" x 100 ft. 5, 8 and 10 mil. wide format rolls.

Custom rolls, including 14 mil. thickness, are available upon request.

R. TAPE CORP**VinylEfx**

VinylEfx® films allow you to transform ordinary graphics into extraordinary statements! These eye-catching, glittering vinyls set your graphics apart from other printed images. Signs produced with VinylEfx® attract more attention, so your marketing message is noticed, read and remembered. That WOW factor is your competitive edge. For demanding applications such as truck and boat graphics, durable series VinylEfx® films are a superior alternative to the expensive simulated gold leaf films. Decorative Series VinylEfx® films are perfect for extended indoor applications, such as P.O.P. graphics and for use in window displays.
