**CTI PAPER USA., INC.****Aspire Petallics Text**

Aspire Petallics metallic card stock, paper and envelopes

Create something special and add some shimmer to your business cards, greeting cards, folders, and brochures. You'll enjoy cross platform printing in digital, offset, color copy and desktop to add stunning subtle effects. Four-color printing simply glows. Even when printed with just one-color, Petallics is lustrous, lively and lovely.

## product features

- Outstanding image contrast for both black-and-white and color
- Available in 20 lb. and 24 lb. basis weights
- Uniform printing surface ideal for variety of printing equipment
- Attractive blue-white shade
- 98 Brightness
- Manufactured with ColorLok® Technology

## common uses

- High-speed Volume Applications
- Office Documents
- Presentations
- Proposals

## electronic imaging guarantee

- Laser and desktop inkjet guaranteed on cut-size cartons

## environmental characteristics

- Forest Stewardship Council™ (FSC®) certified
- Member of Domtar EarthChoice® family of products
- SFI® Certified Sourcing
- Made with Elemental Chlorine Free (ECF) virgin fiber content
- Manufactured under alkaline (acid-free) conditions for increased longevity and performance

**NEKOOSA COATED PRODUCTS,LLC****MagneCote**

You only get one chance to make a first and lasting impression. Using magnetic media instead of standard paper is your best opportunity to do both. MagneCote® Offset, offered by Nekoosa Coated Products, is the world's most attractive paper and the greener magnetic paper choice. Magnetic advertising media offers the highest ROI and retention of any substrate. A magnet is irresistible; you simply must stick it to your file cabinet, refrigerator or the nearest metallic surface. In fact, it is this irresistible urge that gives magnetic media a 30% higher response rate than other substrates. MagneCote® Offset is the perfect choice for business cards, calendars, sport schedules, coupons, reminders, and instructions. The possibilities are endless. Keep your name in front of your customers and steer more business your way!

Magnetic printing just got easier with MagneCote® Digital. A special coating has been added to standard MagneCote® Digital that enables the product to withstand the high heat environment within digital print equipment. Now, you can run pre-magnetized product on your mid-range digital platforms for short run, quick turnaround magnet applications. Since the product is pre-magnetized, it is designed to run in small to mid-size digital printers that do not have lengthy conveyance areas where the product can magnetically adhere to conveyance trays. We offer 10 sheet trial packs that enable you a risk free trial of the product, just contact your local merchant or Nekoosa customer service rep for details. Expand your printing opportunities if you are not currently offering magnetic printing or save the hassle of outsourcing magnet jobs by using Digital MagneCote for business cards, calendars, and company contact information. •Like standard MagneCote® Offset, Digital MagneCote is Nexpress certified.

**NEKOOSA COATED PRODUCTS,LLC****Nekoosa Digital Coated**

Developed especially for today's rapidly growing digital print market, our versatile Digital Coated papers suit a variety of applications. Exceptionally smooth printing surfaces, superior gloss, high opacity and excellent body deliver true color reproduction plus the outstanding runnability and bindery performance that define Nekoosa Coated Products.

- Guaranteed for offset, dry toner/laser and HP Indigo printing platforms
- Engineered for variable data imaging and on-demand applications and bindery operations
- Balanced bright white shade ensures quality reproduction
- Packaged in moisture barrier cartons
- Double coated for smooth, consistent imaging surfaces
- Fast drying times for quick turnaround projects
- Custom sizes and pre-punched options available
- 10% post consumer fiber, FSC®-certified
- Exceptional coating for smooth, consistent surfaces
- Made in the USA

**NEKOOSA COATED PRODUCTS,LLC****Synaps Digital XM**

Synaps Digital XM is a polyester based synthetic paper engineered for high heat, dry toner digital printing. Toner fuses with the synthetic paper to make the finished product both durable and naturally resistant to water, chemicals and grease. The polyester based material has incredible tear strength, and can hold up in any environmental condition.

## Digital Productivity

- Designed to perform on all dry toner based platforms
- On demand, high quality printing
- Minimal scrap, waste and time compared to lamination

## Ultimate Durability

- Toner fusing creates a naturally resistant surface to water, chemicals and grease
- Polyester base provides incredible tear strength and dimensional stability
- Eliminates frayed edges and de-lamination issues

**NEKOOSA COATED PRODUCTS,LLC****Synaps OM**

Synaps OM effortless, efficient processing combined with beauty and strength makes Synaps® OM the new standard for offset synthetics. Synaps® OM is a next generation synthetic paper that is made from high grade polyester and high performance printable topcoat. No other product comes close to matching its exceptionally fast drying time and print quality, all with standard offset inks. The polyester film provides tear resistance, excellent dimensional stability, unmatched lay-flat characteristics, along with the look and feel of a luxury paper. Synaps® OM delivers high throughput and quick turnaround using standard inks, which enables offset printers of any size to win new opportunities replacing lamination for menus and POP signage. To top it off, Synaps® OM stands up to the toughest indoor and outdoor environments. Synaps® OM is designed for offset printing applications as well as HP Indigo, screen, flexo, gravure and UV-curable inkjet printing.

- Superior alternative to lamination
- Dries like paper for quick processing
- Exceptional printing using standard inks
- Waterproof, tear proof, and weather resistant
- Lays perfectly flat, even if shipped in a tube
- Look and feel of a luxury paper
- RIT certified for HP Indigo printers

**CTI PAPER USA., INC.****Kromekote Coated Cover**

The FSC-certified Kromkote Collection features the most complete offering of cast-coated papers for use in production-rated color copiers, offset presses and HP Indigo presses.

Kromekote is ideal for attention-grabbing print promotions, direct mail, brochures, book covers, business cards, presentation folders, invitations, greeting cards, retail packaging, labels and more.

Details on the new Kromekote Collection

For offset and dry-toner production equipment, the new Kromekote Collection features a "universal" coated one-side sheet and a coated two-side sheet in a variety of weights and sizes. Kromekote is also available for HP Indigo presses in two calipers and sizes in C1S (RIT-certified for HP Indigo) and C2S (RIT certification pending).

Kromekote is available in colors and foils—and as a C1S label in two basis weights. In addition to FSC® Certified, Kromekote products are acid-free, lignin-free, elemental chlorine free and, with the exception of foils, recyclable.

**WESTROCK MWV LLC****Tango Digital C1S**

Tango C1S is unsurpassed in its proven reputation for outstanding runnability, printability, consistency on press and in converting. Add high brightness and an ultra smooth surface and Tango C1S becomes the preferred choice for any printed application where quality matters.

Tango C1S boasts a distinctive clean-white styling that delivers crisper colors and sharper contrast while maintaining optimal color fidelity on press to produce eye-catching graphics that demand attention. The uncoated backside styling matches the coated side for consistent visual appeal.

## Features:

- 92 Brightness
- Exceptional surface integrity
- Ultra smooth surface
- Excellent ink holdout
- Fade resistance
- Higher printed gloss factor than most of its competitors
- SFI Certified
- FSC® Certified

We have access to the full line of Tango products and special sizes in all calipers.

**WESTROCK MWV LLC****Tango Digital C2S**

Tango C2S boasts outstanding runnability, printability and consistency on press and in converting. Add in high brightness and an ultra smooth coated surface on two sides with more space for sharp graphics and Tango C2S becomes the preferred choice for any printed application where quality matters.

Tango C2S boasts a distinctive clean-white styling that delivers crisper colors and sharper contrast while maintaining optimal color fidelity on press to produce eye-catching graphics that demand attention. The uncoated backside styling matches the coated side for consistent visual appeal.

## Features:

- 92 Brightness
- Exceptional surface integrity
- Ultra smooth surface
- Fade resistance
- Higher printed gloss factor than most of its competitors
- SFI Certified
- FSC® Certified

## Recommended Applications:

- Brochures & Folders
- Advertising & Direct Mail
- Menus & Signs
- Pharmaceutical
- Dry Food

We have access to the full line of Tango products and special sizes in all calipers.
