

Buy responsibly... Buy FSC*

100%

Products with a 100% FSC label come from forests certified as meeting the environmental and social standards of the Forest Stewardship Council (FSC).

Recycled

Post-consumer reclaimed material includes wood and/or wood fiber that has been reclaimed from a product after that product has been used for its intended end-use purpose by individuals or businesses.

Mixed Sources

Products with a Mixed Sources label support the development of responsible forest management worldwide. The wood comes from FSC certified well managed forests, company controlled sources and/or post-consumer reclaimed material.

Controlled wood is not FSC certified, but is controlled by the company to exclude:

- a. Wood from forest areas where traditional or civil rights are violated;
- b. Wood from forests where high conservation values are threatened;
- c. Wood from genetically modified (GM) trees;
- d. Illegally harvested wood;
- e. Wood from natural forests which have been harvested for the purpose of converting the land to plantations or other non-forest use.

The recycling symbol identifies post-consumer reclaimed content in these products.

There are five variations of the FSC "Mixed Sources" label for more information please refer to www.fsc.org

Support responsible management
of the world's forests.

BECAUSE
FORESTS
MATTER

* The Forest Stewardship Council (FSC) is an independent, not for profit, global membership based organisation established in 1993 by environmentalists, social interest groups, responsible retailers & leading forest companies to develop standards, a certification system & credible label for products from responsibly managed forests.
