NEKOOSA COATED PRODUCTS,LLC

Magnecote

You only get one chance to make a first and lasting impression. Using magnetic media instead of standard paper is your best opportunity to do both. MagneCote® Offset, offered by Nekoosa Coated Products, is the world's most attractive paper and the greener magnetic paper choice. Magnetic advertising media offers the highest ROI and retention of any substrate. A magnet is irresistible; you simply must stick it to your file cabinet, refrigerator or the nearest metallic surface. In fact, it is this irresistible urge that gives magnetic media a 30% higher response rate than other substrates. MagneCote® Offset is the perfect choice for business cards, calendars, sport schedules, coupons, reminders, and instructions. The possibilities are endless. Keep your name in front of your customers and steer more business your way!

Magnetic printing just got easier with MagneCote® Digital. A special coating has been added to standard MagneCote® Digital that enables the product to withstand the high heat environment within digital print equipment. Now, you can run pre-magnetized product on your mid-range digital platforms for short run, quick turnaround magnet applications. Since the product is pre-magnetized, it is designed to run in small to mid-size digital printers that do not have lengthy conveyance areas where the product can magnetically adhere to conveyance trays. We offer 10 sheet trial packs that enable you a risk free trial of the product, just contact your local merchant or Nekoosa customer service rep for details. Expand your printing opportunities if you are not currently offering magnetic printing or save the hassle of outsourcing magnet jobs by using Digital MagneCote for business cards, calendars, and company contact information. •Like standard MagneCote® Offset, Digital MagneCote is Nexpress certified.
